

---

You play as an unassuming green blob named **Filo**, who has an incredible ability: to control his many, many clones -- referred to as the “**ME**”. These clones possess all sorts of fun abilities that can be used to solve puzzles throughout the game. As you progress further through Filo’s adventure, you will find a variety of new types of clones. Understanding and harnessing their unique powers are key to your success.

Filo’s myriad of adventures take him to a whimsical universe. It features a colorful art genre filled with **adorable characters** in their world’s **mysterious environment**.

- Honorable Mentions, Main Competition – IGF China
- IndieCade E3 Showcase – IndieCade
- Unity Showcase – GDC, China Joy, Tokyo Game Show, Korea Games Conference & G Star Global Game Exhibition

### Key Features:

- **Discover new transformational abilities** as you progress through each chapter. Learning to master these forms and using them in sequence, is key to solving the game’s many puzzles.
- **Filo’s endless adventures** take you to a wondrous world of color filled with delightfully, intriguing characters.
- **Ride massive and powerful creatures.** Utilize their unusual abilities to solve special puzzles and to smash through pesky obstacles on your way to the goal!
- **Boss monsters**, each with their own distinct characteristics, will try to eliminate you. Challenge and overcome them.
- **Earn your rewards when you have solved the puzzles!** Dozens of adorable costumes, ancient artifacts, and bonus levels are waiting for you!

so many plays on me i finesse. so many me dark forest iv. so many times you left me all alone lyrics. so many things that get me angry. why are so many colleges emailing me. so many me the mine iv. so many me xbox 360. so many me characters. so many me the mine 2. so many me volcano gate. asked me so many questions. so many me level 5. so many me outskirts 4. so many me dark forest v costume. so many me the mine 5. so many days you passed me by. so many me game. so many me steam. so many me walkthrough. so many me skyraft 3. so many me wikipedia. so many me how long to beat. so many me outskirts 5. so much of me is you. so many reasons for me to run and hide. so many distractions that pull me away. so many me skulls. so many animals inside of me lyrics. so many me mystery of the skulls. so much love me song download. so many me game download. so many me roadmap. so many me abilities. why so many sirens near me. so many birds after me aaye. so many me dlc. so many emotions going through me right now. why do so many guys like me quiz. so many me mine 5. he asks me so many questions. so many me skyraft 5. so many me download free. so many me volcano depth. so many things wrong with me. so many me trueachievements. remember me so many homies in the cemetery. so many me achievement guide. so many me multiplayer. so many racks on me. so many me mine 2. so many me outskirts. so many me free download. so many dreams about you and me happy endings. so many me dark forest v. so many me outskirts 2. so many sacrifices keep me alive. so many things remind me of my ex. you give me so many reasons to smile. so many me download. so many me gameplay. you give me so many reasons to love you. so many me outskirts vi. so many men so little time. so many birds after me. so let me know how many you want. so many me review. so many me ps4. so tell me how many carols here tonight. so many me cheats. so many meaning in urdu. so many curves and me without brakes. so many memories. so many charges make me wanna go overseas. so many me pc download. so many me outskirts 3

Any DLC without new ship is meant to screw us :-P

=====  
Alright.I didn't want to write these words,I had a regatta to win.But the so-called twice fixed regatta still blocked me at Bridgetown.The only improvement was I could finish 3 stages of the race,instead of zero.Never the less,once again I have nothing to do now.Thus I have time to talk about the new DLC.

I bought Hero of Nation as soon as it was released,to show my support to the devs and the game.Never played it yet,however.Thanks to the delay.But I read the walkthrough so basicly I know what this DLC looks like.

Now dear Charles has a chance of being governor.All hail!So what?He is governor of NOTHING.No real power,not even over a common citizen.Lord governor is merely a void title.What he do is still sailing,or raiding.Look!A governor that raids on a pirate ship!How ironic...Don't tell me that Governor Charles has the power of collecting tax from St Martin.With a character who is capable to finish this DLC,I don't need money.

I'm NOT blaming this DLC for the lack of real governor power.I'm blaming the devs for they had forgot what the game was.This is an adventure free sandbox pirate RPG.I bought it for adventure,pirate life,strange stories and the Ghost Ship,not for noble titles or politic power.

Should I want to be governor or king of the new world,void title or with real power,I could play Empire Total War.Build my own fleet,capture the colonies of New Spain one by one,assign a mayor to each of them,and construct whatever I want,then blackmail King Carlos the Idoit a huge sum for a ceasefire.I've had enough of that,so I deleted my ETW savegame and went back to TEHO.

Why are there always some players crying for high level politic authority element in a adventure RPG?Why do they have to seek for the chance of being governors,dukes,prime ministers or kings in a pirate game?Why did the devs listen to them and mix this once great game with something that doesn't suit it?

Looks like next DLC will be normal.I like Charles,and Sea Dogs,really.

BTW,please make your third fix to regatta.Most of my friends didn't find that the bug still exists,as you had already disappointed them with the fail of the first regatta fix and they didn't even want to try the second.TEHO has no native language of us,yet still they play it with dictionary in hand.Do NOT let them down again,plz.. While the software itself and its assets are great, there is a huge problem with the license of its contents.

I purchased this software because it said we could use its results for our 2D games. Unfortunately, and to my knowledge it is still unclear to non-users willing to purchase, the software as of now only authorizes usage of its contents for "RPG Maker".

What does that mean?

It means that you won't be able to use Character Hub production for your 2D Games, not in any way.

At least if you are not a pixel art designer. And if you are a pixel art designer, I wonder what use could be Character Hub to you as you would combine your tiles and sprites on Photoshop for about the same results.

---

The game description says that "the elements found in the program should work with other 2D game engines as well." As of now it adds that "RPG Maker assets are for RPG Maker use only". But even some months after, the software only contains assets from RPG Maker! This means that you cannot use it in any game of yours, unless you make a RPG-Maker-RPG. I've googled for other 2D resources for Character Hub to no avail. If you know any legal resource library that we may use for our own games (and not something restrictive like RPG Maker), please tell!

The software should be renamed as "Character Hub for RPG Maker" ; as of now, although a very nicely made software, it ends almost as a scam for programmers willing to use it for their own games. It's very unfortunate as I am sure Character Hub programmer, an indie, has worked on this software, but it needs clarification and efforts to get some license-free resources.

. I never enjoy playing western RPG before. If it's RPG, it has to be JRPG, but this game, man, it's so good. The story is short, straight forward, kinda feels like a complimentary for this game, but it's there and it's good. Lots of variety on how you could play the game, the mechanics not limitless, but you can always experiment. It's a good game.. Used to be an ok time waster. I got into it as a relax after work game. It's like a FB game as you need energy to keep going which you either wait for it to refill or buy with real cash. I was fine with that, kept me from spending what little time I had before bedtime just playing this game.

My problem with this game is that 2 times I hit level 24, quit for the night. Came home from work the next day, clicked play and all progress was gone.....had to start over from level 1 again.....as I said, it happened twice, both at level 24.

I'm glad I never spent money on it because I would have been out however much I spent because their official attitude was "we don't care".

One day I might redownload it and try but after spending weeks getting higher levels and unlocking new areas...you get bumped back to level 1 is just frustrating and made me quit.

It's fun and free so go ahead and try it if you like these type of games...just be warned that if you spend money and get set back to level 1 again...you were warned.. **It is advised to play the Hello Charlotte trilogy before this DLC as it will help understand the story and characters in Heaven's Gate.**

**You need to own the Hello Charlotte Ep3 Childhood's End to play this DLC as the file is found within the Childhood's End game folder**

**HC: Heaven's Gate is unlike the previous trilogy of games by Etherane so be prepared for a change of pace & game medium. Instead of immersing you into a gameplay of puzzles, expressionist graphics that evoked emotional reaction & a surreal world Heaven's Gate takes your hand and let's you explore a kinetic backstory of the HC characters including Henrietta Warhol, Charles Eyler, Vincent and Felix in the True Realm.**

*Designed using Ren'py this DLC is an absorbing insight into the relationship between Henrietta (Anri) and Charles as well as giving us a glimpse into the developing friendship between Charles & Vincent.*

*This Steam DLC also features an Extra story called Diary in the game menu that details events through Anri's eyes that will reflect on her developing relationship with Charles Eyler as well as showing a True Realm version of situations covered in the HC trilogy.*

*The average reading time is between 40 minutes to an hour with the Diary being a much shorter reading time, the character artwork is forefront with an image blurred background that is common in Ren'py and other Visual Novel programs such as VNMaker. There is a skip function typical to Visual Novels and a save option if you don't want to complete this in one sitting.*

*I personally enjoyed this approach taken for this DLC as using a Kinetic visual novel style helps add to the reader's transition between earlier HC games that were based within the TV world\False Realm and this DLC being focused in the True Realm. The story does feature mature themes for all the characters ranging from depression to attempted burglar\u2665\u2665\u2665\u2665\u2665\u2665 and self-harm.*

---

*I'm intrigued to see if Etherane will release anymore future Hello Charlotte DLCs as this was a fascinating journey into the characters from a real life setting perspective and it opened up more of their backstories from a more mature and clearer view which helped me understand the characters from an emotive angle as the characters went through their 'coming of age'.*

~~~Liked what you see? You can find more at [Have a Word](#)~~~. Works great for low end cpu. it focus the cpu and pc on the game meaning that ur game works faster which means less stutter and for some game more fps too. there is new update also. which i like. [Review for MORDHAU](#)

[Mordhau is a first & third-person slasher inspired by games such as Chivalry Medieval Warfare. Also amazing character creation that lets you create multiple kinds of mercenaries to suit your play style. Mordhau has a variety of gamemode types: Team Deathmach, Skirmish, Frontline, Battle Royale and Horde. Developed by small studio \(10 developers only\).](#)

[\[u2714\]](#)

- [Beautiful graphics](#)
- [Gameplay mechanics/combat is superb](#)
- [Soundtrack](#)
- [Executions](#)
- [32v32 mode](#)
- [Horde mode](#)
- [Character customisation](#)
- [No microtransactions all cosmetics you earn by playing](#)

[\[u2718\]](#)

- [Optimization is not the best](#)
- [Glitches](#)

[9/10 highly recommended game](#)

[Thanks for reading!](#)

---

you end up doing some lame maze stuff instead of playing pinball the whole time. Decent mobile game in the same vein as Lara Croft Go. Art is good and the puzzles are challenging.. Russian game.. More stuff to do, whats not to like ?. Game has known sound issues that stop working and require uncertain steps such as bios sound disable+enable. Developers will not fix it. Game is being sold with major problem.

I recommend googling for "supcom sound problems" and you will get a good idea.

It's a good game, but I do not recommend giving money for a broken product.. A lovely sequel to the original, with some creative puzzles, fun characters and a quirky world. You'll need to play the first game to enjoy this, but it's worthwhile if you're a fan of the genre. There were a few puzzles here and there that were made unnecessarily difficult by a lack of clarity (I'm talking about the knock counting puzzle and the switchboard plugs, if the devs are reading), but the well designed hint system compensates to some degree.. You can also find it under Steam's 'music' tab.. This game is a buggy mess, what some would consider "skill" is just broken game mechanics. A single pitchfork kills 10+ zombies in a single hit. Doesn't teach you how to use your DNA to upgrade. Its hot trash.. SS:SE is a perfect example that Croteam gets it. This game has options for every gamer! We need more games like this in VR. Full story and every locomotion option possible. Plus it works everytime on my Rift (no blackscreen like some SteamVR games. I think it's a downgrade from the original. Watchdogs is a dark and emotional story, while Watchdogs 2 is a comedy and is light-hearted. I will say the side-missions are fun but that's about it. There's more focus on hacking than on the gun system (which was the opposite in the original Watchdogs) but that's what mad the original so good. The characters also don't get nearly enough screen time. If you want a fun gameplay game than get this, but if you like story driven games, prepare to be dissapointed. Honestly, the game is enjoyable and you should give it a go, but wait for it to go on sale. 6/10
